

# Singapore wealth firm hires portfolio manager

By **Indira Vergis** / 11 Apr, 2016 at 03:11

Singapore-headquartered ThirdRock Group has appointed Vincent Ee as portfolio manager, effective 1 April.

A former chief investment officer, Ee will focus on the management of customised multi-asset solutions and formulate overall asset allocation perspectives for his strategies.

Before joining ThirdRock, Ee was CIO at Foord Asset Management where he led the Singapore investment team. He has also previously worked as a fund manager at Goldman Sachs and Morgan Stanley. He also co-founded Libra Capital Management, managing a Greater China-focused equity long-short fund.

ThirdRock is a financial services group that provides investment advisory and wealth management, corporate finance advisory, and asset management services, to accredited and corporate clients globally.

It was founded by Jason Lai, currently group managing partner and CEO, in 2010. He was previously head of China at ABN Amro Private Bank (Hong Kong).
